AGR 308: ANNUAL CROPS PRODUCTION

Date:

Time:

INSTRUCTION: Answer Question **One (Compulsory)** And any Other **Two** Questions.

QUESTION ONE (30 MARKS)

- a) With an example in each case, explain three reasons why the classification of crops is important in research (3 marks)
- b) Explain two uses of each of the following annual crops
- i) Green grams (2 marks)
 - ii) Barley (2 marks)

- iii) Linseed (2marks)
- iv) Cotton (2 marks)
- c) Explain four ways farmers can manage challenges in wheat production (4 marks)
- d) Giving specific crop examples in each, explain how the following factors affect annual crops
 - i) Altitude (2 marks)
 - ii) Rainfall (2 marks)
 - iii) Soil P^H (2 marks)
- e) Explain why pigeon peas and pole beans are categorized as annual crop yet they are indeterminate (1 mark)
- f) Giving an example of crop infected, describe two symptoms of the following infestations in annual crops
 - i. Wire worm (2 marks)
 - ii. Bruchids (2 marks)
- g) Giving a specific crop example in each case, explain two reasons for the following practices in annual crops (4 marks)
 - i. Training
 - ii. Manuring

QUESTION TWO (20 MARKS)

- a) Describe the production of common beans under the given headings (10 marks)
 - i) Ecological requirements
 - ii) Anthracnose symptoms
 - iii) Planting
 - iv) Weeding
 - v) Harvesting
- b) Citing a specific disease example in each case, explain five strategies used in the management of diseases in finger millet (10 marks)

QUESTION THREE (20 MARKS)

- a) Explain the production of cassava under the following headings (10 Marks)
- i) Ecological conditions
 - ii) Planting
 - iii) Weeding
 - iv) Mealy bug damage
 - v) Harvesting
- b) Describe the production of Irish potatoes under the following headings (10 marks)
- i) Ecological requirements
 - ii) Chitting
 - iii) Hilling
 - iv) Fertilization
 - v) Post-harvest practices

QUESTION FOUR (20 MARKS)

- a) Citing specific goals, discuss seven roles of annual crop production in Kenya towards achieving Vision 2030 (14 marks)
- b) Discuss three management practices farmers can adopt in improving tobacco production in Kenya (6 marks)

QUESTION FIVE (20 MARKS)

- a) Describe paddy rice production under the following headings
- i) Ecological requirements (4 marks)
 - ii) Water Management (5 marks)
 - iii) Nutrient management (4 marks)
 - iv) Rice blast damage (2 marks)
- b) Describe how sunflower production can be improved under the following headings
- i) Planting (2 marks)
 - ii) Management of nematodes (3 marks)
